Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

A new office action is found below which responds to the amendment received on January 31, 2006.

1. Claims 1-23 have been cancelled.
2. Claims 24-29, 33-38 and 42 are allowed.
3. Claims 30 and 39 are rejected.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 30 and 39 rejected under 35 U.S.C. 102(e) as being anticipated by Crocker et al. US 2004/0198366.

As per **claims 30 and 39**, Crocker teaches a method/program of testing cellular network integrity using telematics (Para's #4-5 teaches telematics and link testing), the method comprising:

receiving a data upload failure record including a connection failure cause at a call center (claim 1 teaches detecting a communication link failure, also see para #39-40)

the call center configured to receive and service many calls at the same time via a wireless network (figure 1 shows call center which supports a plurality of users and Para# 21), and

the data upload failure record further including a geographic area associated with the data upload failure record (claim 4 teaches geographical location) and;

sending the connection failure cause and geographic area to a wireless network (Para #33 teaches evaluating the type of failure while Para #27 teaches determining location during need for communications assistance, which would require the connection failure cause. Claim 12 teaches sending connection failure data to wireless network).

Allowable Subject Matter

1. Claims 24-29, 33-38 and 42 are allowed.
2. Claims 31-32 and 40-41 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

These claims recite novel material not found, either alone or in combination, in the prior art of record.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
